# METRIC SYSTEM

THIS IS THE SYSTEM THAT SCIENTIST USE TO MEASURE.

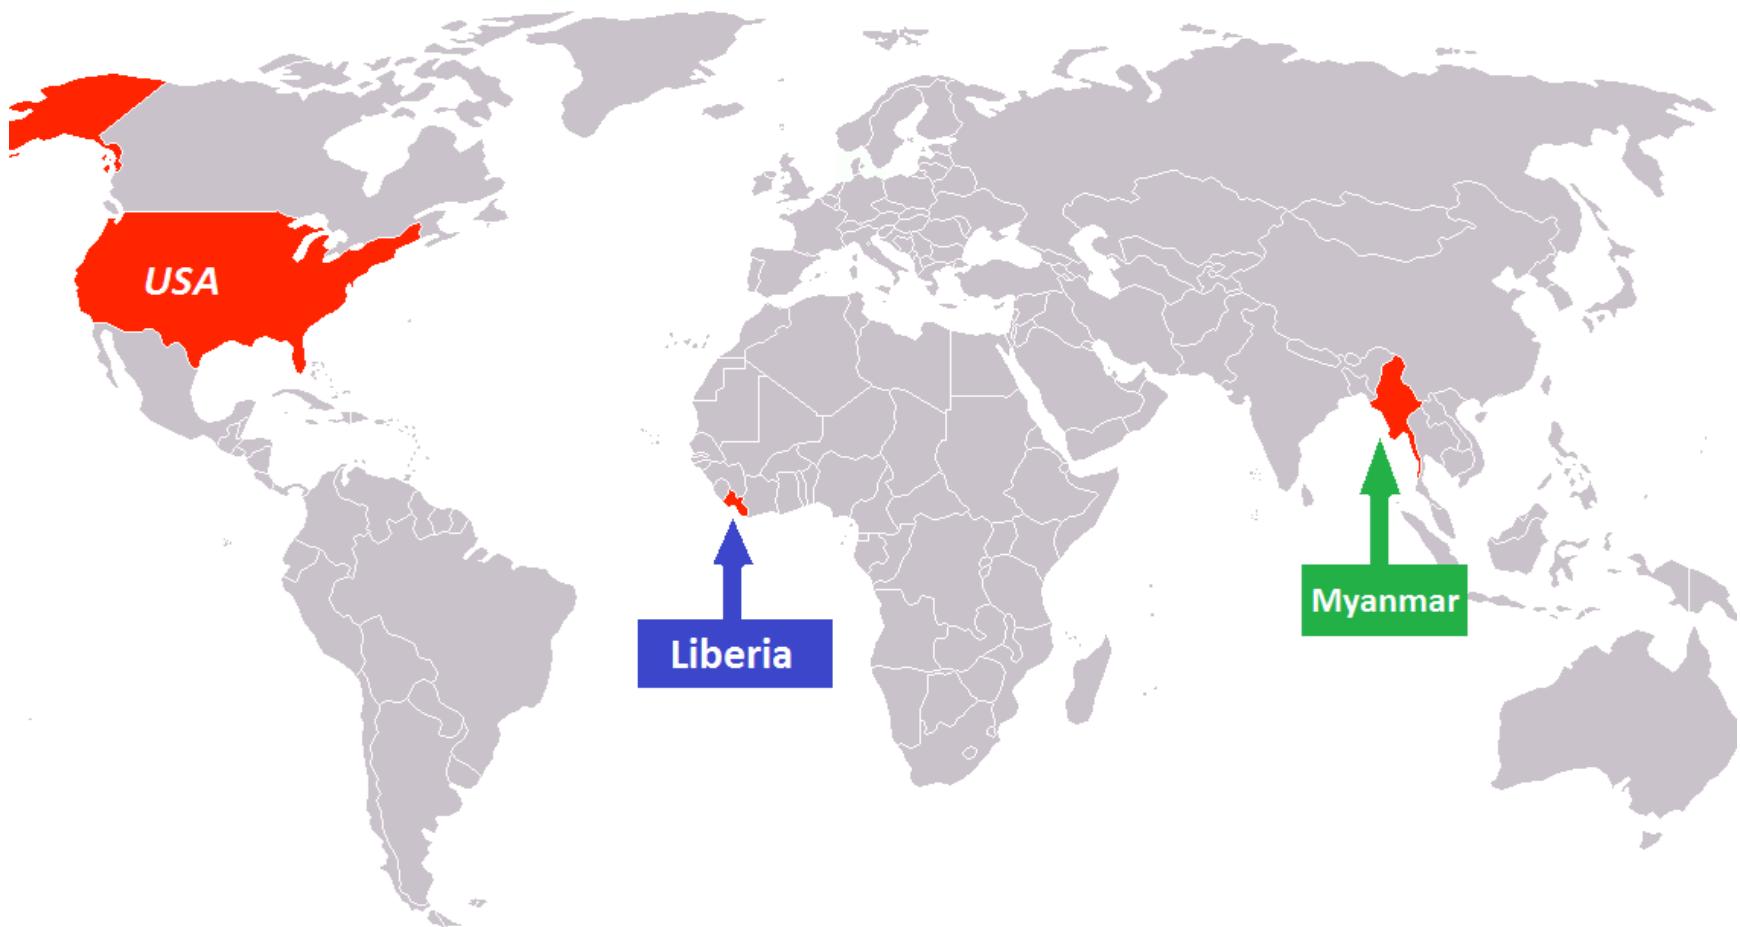

- Based on “10” so it’s EASY
- S.I. stands for “*Système Internationale*
- The metric system is used to measure everything

# It is used universally, except in the US

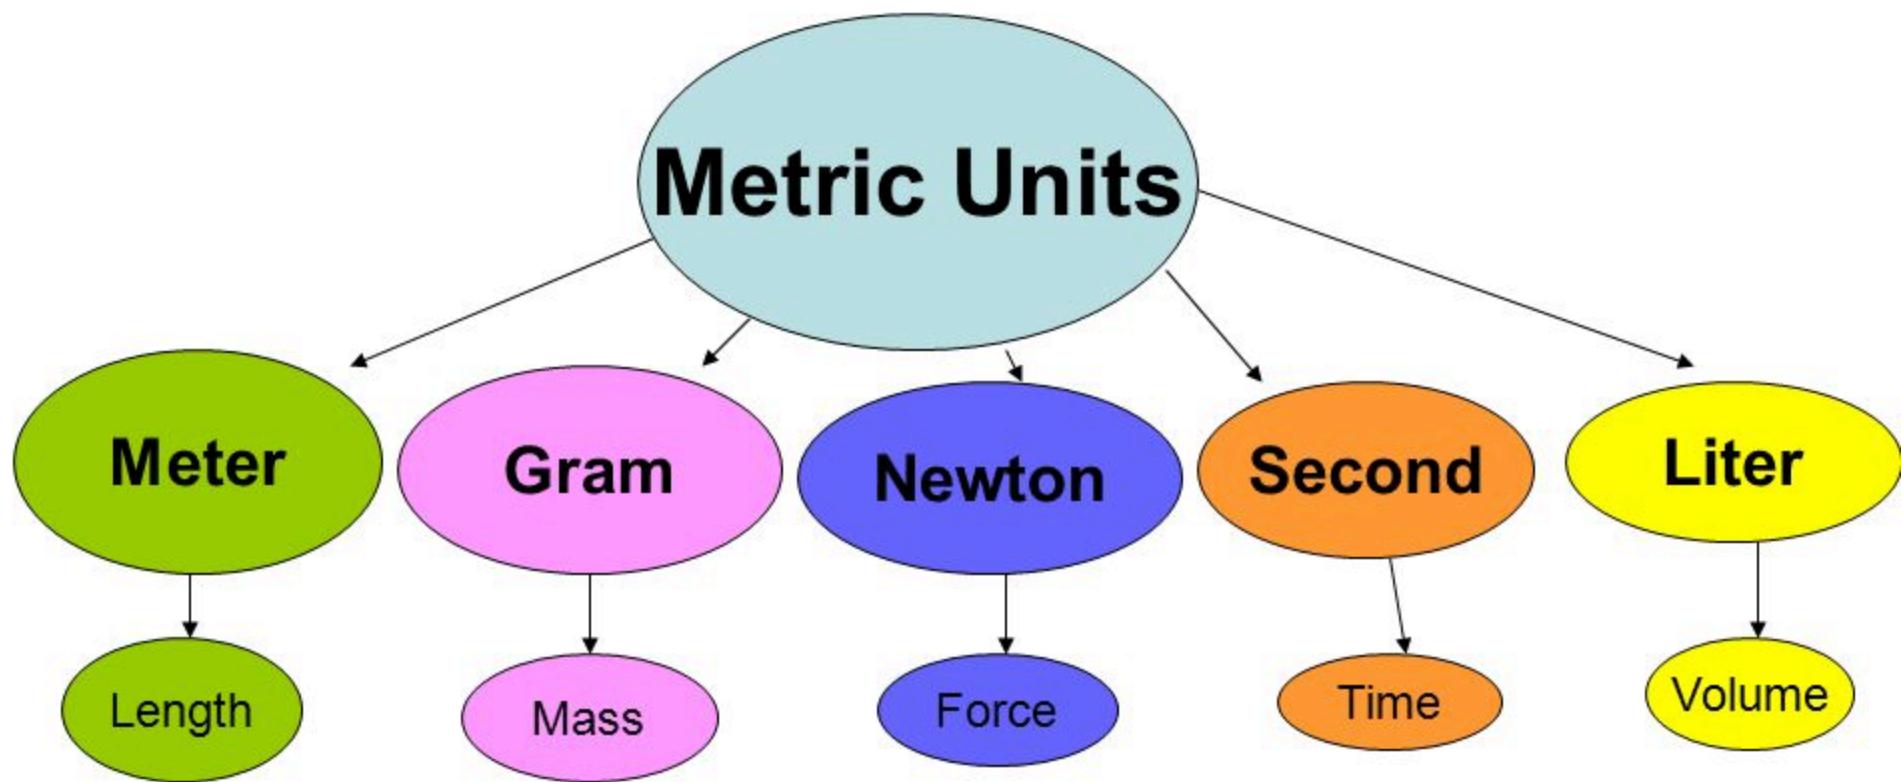

(J Carter)

Milk, gasoline, soda, shoes??

# Science Uses Metric Units

- World scientists use the International System of Units (SI) because it uses less units and is convenient and universal.
