## What is the geologic time scale?

## Lesson Review

Complete the following. Write your answers in the spaces provided.

1. What is the geologic time scale? $\qquad$
2. What is the major unit of geologic time? $\qquad$
3. What are the more recent divisions of geologic time called? $\qquad$
4. How old do many scientists estimate Earth to be? $\qquad$
5. During which divisions of geologic time are you living?
6. How many eras of geologic time make up the geologic time scale? $\qquad$
7. How have scientists been able to develop a geologic time scale? $\qquad$
$\qquad$
$\qquad$
$\qquad$

## Skill Challenge

Skills: classifying, organizing, researching
Classify each organism listed in the table below in the era of geologic time in which it first appeared on Earth. Place a check mark in the correct column to indicate your answer. Use reference materials if necessary.

| LIVING THINGS AND GEOLOGIC TIME |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
| Organism | Cenozoic | Mesozoic | Paleozoic | Precambrian |
| 1. Bacteria |  |  |  |  |
| 2. Seed plants |  |  |  |  |
| 3. Modern human |  |  |  |  |
| 4. Flowering plant |  |  |  |  |
| 5. Mammoth |  |  |  |  |
| 6. Reptiles |  |  |  |  |
| 7. Tyrannosaurus rex |  |  |  |  |
| 8. Fishes |  |  |  |  |
| 9. Horse |  |  |  |  |
| 10. Insects |  |  |  |  |
